# Introduction

## About me

- I am a Bachelor of Computer Applications student with a passion for UI/UX design. Skilled in Figma, prototyping, animation, and color combinations, I excel at creating user-friendly and visually appealing designs. As an introvert with strong communication and leadership skills, I also enjoy drawing, painting, and logo design.

## Personal projects

- Status Generator AI Mobile Application: Developed an AI-powered mobile app for generating personalized status updates.
  - College Marketplace Application: Created an app for selling courses, plants, paid tests, and enabling user posts.
  - Chatting Web Application(Recent Project): Built a real-time chat web application for a college project.
  - Makeover E-commerce Website: Currently developing a makeover e-commerce website for a college project.

# Project Portfolio

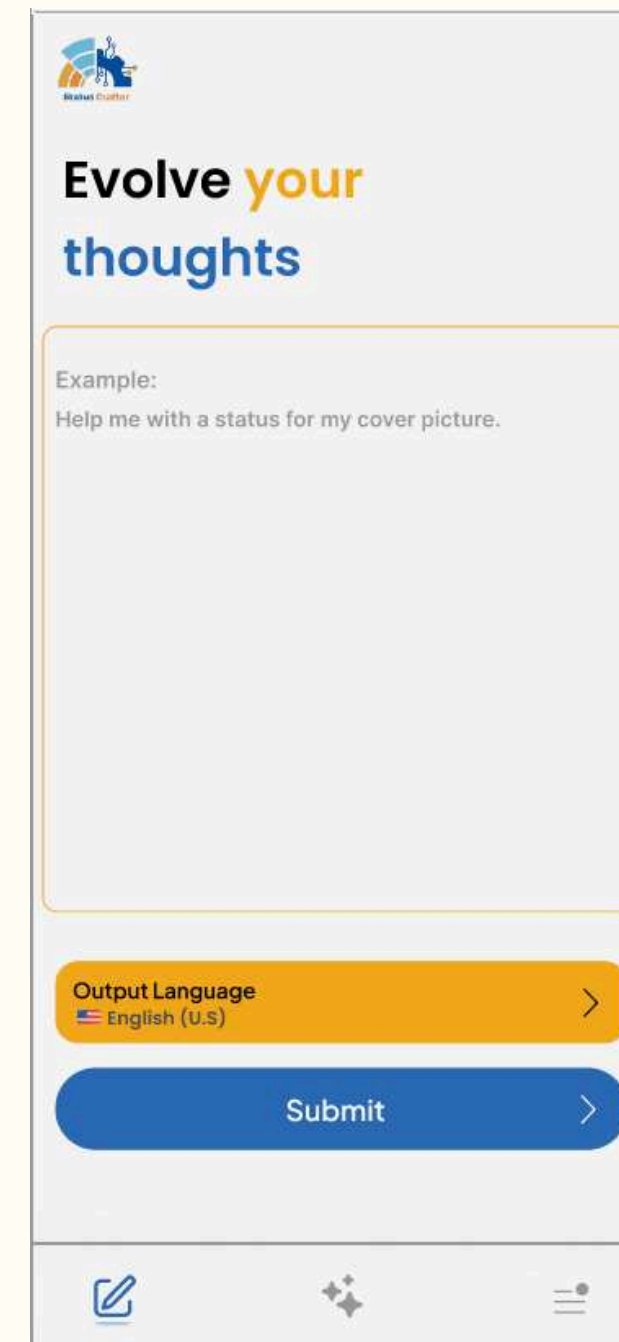

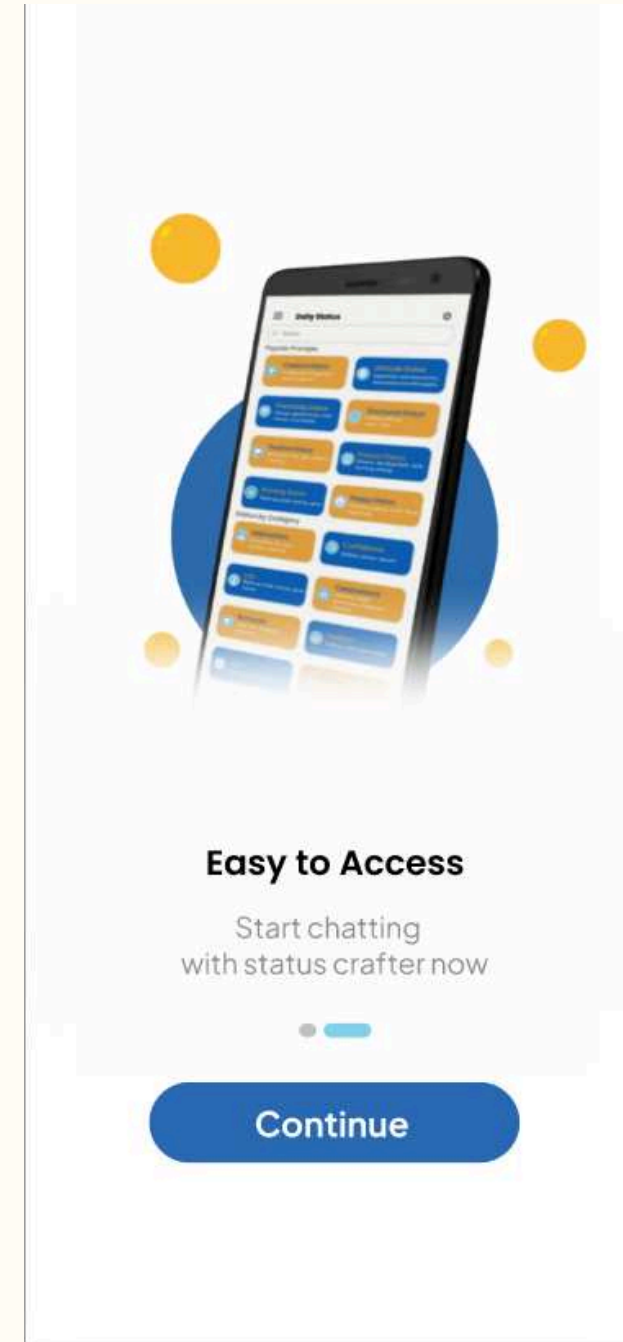

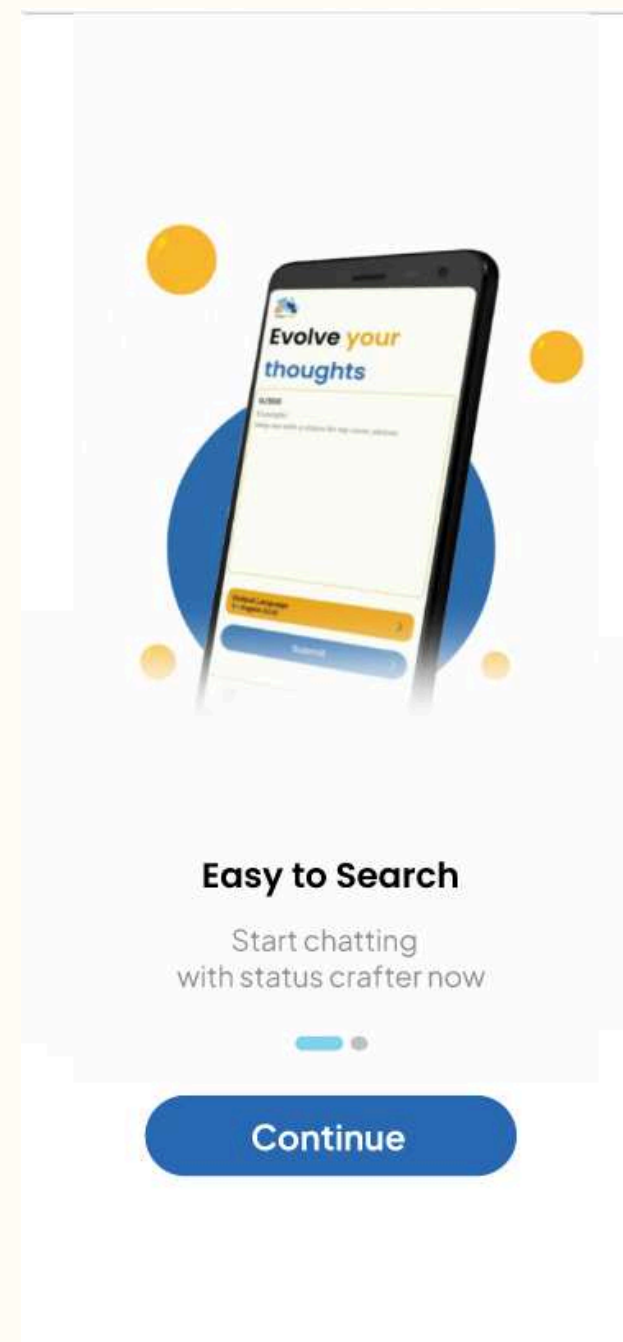

My project portfolio highlights my expertise in UI/UX design, development, and AI integration. Notable projects include the Status Generator AI Mobile Application, and the College Marketplace Application, which facilitates the sale of courses, plants, paid tests, and user posts, enhancing student engagement. My most recent project was real-time chatting web application, which I did for my college project. In recent times, I am making the makeover ecommerce website for desktop.
